**OPERATIONAL REVIEW:**

During the year under review, your Company's hotels operations and finances were severely affected. The primary drivers of loss are borrowing cost for various components of the stalled projects and no income generated from them. Gross revenues decreased to Rs.1493.31 Lacs against Rs. 1575.43 Lacs in the previous year. Profit Before Interest, Depreciation and Taxation was Rs. 238.09 lacs against Rs. 403.72 Lacs in the previous year. After providing for Interest, Depreciation and Taxation of Rs.1438.70 Lacs & Rs. 220.75 Lacs respectively, the Net Loss of the Company for the year under review was placed at Rs.1391.30 Lacs as against Net Profit of Rs.63.86 Lacs in the previous year.

According to Accounting Standard 16, a Company should suspend capitalization of borrowing costs during extended periods in which it suspends active development of a qualifying asset i.e. project assets and such costs are costs of holding partially completed assets and do not qualify for capitalization. In view of the above, the entire borrowing cost incurred for all the components of the projects, which are stalled owing to paucity of funds, has been treated as expense and debited in the profit and loss account.

During the year under review, the pending receivables such as lease rentals, electricity charges, air conditioning charges and other operation charges from the tenants of the Shopping Mall have now been written-off.

## STATE OF THE COMPANY'S AFFAIRS

The members are aware that the Company is implementing diversification cum expansions projects in a phased manner namely Shopping Mall, Multiplex Theater, 2.7 MW Bio-mass based co-gen power generation plant, Biomass Plantation, Convention Center and additions & renovation of existing hotels properties for which the Company was initially sanctioned credit facilities by both Allahabad Bank, Tirupur and Andhra Bank, Coimbatore. The Company subsequently was not extended timely support by the Banks, both in terms of additional debt funding required as well as alteration in the terms of the existing loans.

The original project cost for the entire development was Rs.124.42 crore for the above components. During the course of construction and subsequent discussions with the technical consulting agencies, it was realized that the project required substantial up-gradation thereby increasing the scope of overall project accordingly. This has necessitated significant and substantial addition of buildings and equipments for the project. All these have resulted in a thorough revision of the components of the project (including component of Bio Mass cultivation) resulting in a total project cost of Rs. 204.15 Crore (Rs.162.06 Crore in July 2012) in place of Rs.124.42 Crore as originally envisaged. Hence, the company was in need of further funding in respect of revision in the components of the project and slowed in the construction of the Projects due to change in scope of work primarily for the Renewable Energy Power Plant and the Hyper-mart and Multiplex.

- ❖ The shopping mall was formally launched in December, 2013. The most of occupants at the Mall either downed their shutters temporarily or withdrawn from their agreements entirely due to delays in the completion of the Multiplex and the Food Court. As a result, the occupants of the Mall declined to make payments of their rentals, electricity charges and other operational charges.
- ❖ The construction of the Renewable Energy Power Plant has been completed. All the major equipments including the Gasifiers and Gensets have been installed. The balance works include the plant integration and automation. Due to the use of superior technology, this Renewable Energy Power Plant will have an effective output of 4.1 MW in Co-Gen.
- ❖ The Hyper-mart / Multiplex has been partially constructed. There have been significant changes in scope of work for this building. These changes are required to achieve a better construction quality and durability.

Owing to some changes in scope of work for the Renewable Energy Power Plant and the Hyper-mart and Multiplex primarily due to technical up-gradation, the Company approached the existing bankers for an additional financial assistance. Even though, the company was sanctioned the additional loan facility, there has been unexplained delay in the disbursement of loan and hence the cost of project escalated further. Moreover, apart from the delay, the major portion of amount of additional term loan was said to have been adjusted towards the dues of the Company. This has resulted in the deferring of completion and commissioning of these projects further.

The Company has provided a letter to the existing bankers during March, 2014 summarizing the situation and requesting to restructure its accounts as per certain guidelines issued by Reserve Bank of India for formation of Joint Lender Forum (JLF) for considering Corporate Debt Restructuring (CDR). ## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

(Pursuant to Clause 49 of the Listing Agreement with Stock Exchange)

### **A. INDUSTRY STRUCTURE AND DEVELOPMENTS:**

In the past years, tourism has experienced continued growth and deepening diversification to become one of the fastest growing economic sectors in the world. Modern tourism is closely linked to development and encompasses a growing number of new destinations. These dynamics have turned tourism into a key driver for socio - economic progress. In recent times, the business volume of tourism equals or even surpasses that of oil exports, food products or automobiles. Tourism has become one of the major players in international commerce and represents at the same time one of the main income sources for many developing countries. Hotels are an important component of the tourism sector. They contribute in the overall tourism experience through the standards of facilities and services offered by them. The Indian tourism and hospitality industry has emerged as one of the key drivers of growth among the services sector in India. Tourism in India is a potential game changer. It is a sun rise industry, an employment generator, a significant source of foreign exchange for the country and an economic activity that helps local and host communities.

People around the world have kept travelling more than ever before this year despite wars, terrorist attacks and a growing fear of pandemics as well as diverging economic conditions. The world travel industry achieved robust growth this year despite diverse threats and the uncertain world economy. Outbound travel grew by 4.5% in terms of trips while spending grew by 2% by trip on average and by 6% in terms of total global outbound travel turnover. The travel industry has remained crisis proof even in these recent turbulent times.

Foreign Tourist Arrivals (FTAs) to India increased from 71.25 lakhs in financial year 2013-14 to 77.71 lakhs in financial year 2014-15, thereby resulting in an increase of 9.07% YoY basis. Tourism continues to play an important role as a foreign exchange earner for the country. In 2014-15, Foreign Exchange Earning (FEE) from tourism were Rs.1,20,646 crores as compared to Rs. 1,09,579 crores in 2013-14, registering a growth of 10.10%

### **B. OPPORTUNITIES**

India's size and massive natural, geographic, cultural and artistic diversity offers enormous opportunities for the tourism and hospitality industry. The promotion and aggressive marketing measures undertaken by the government is expected to aid influx of tourists. The industry would also benefit from introduction of new forms of tourism and development of niche segments. Hospitality, a major segment of tourism, has grown by 10-15 per cent on the back of better consumer sentiment with the change of Government. As demand is going up occupancies are improving.

The Indian government has realised the country's potential in the tourism industry and has taken several steps to make India a global tourism hub. Some of the major initiatives taken by the Government of India to give a boost to the tourism and hospitality sector of India such as to set aside Rs 500 crore for the first phase of the National Heritage City Development and Augmentation Yojana (HRIDAY), proposed to establish cross cultural linkages and to revive historic maritime cultural and economic ties with 39 Indian Ocean countries Under 'Project Mausam' and to extend Visa on Arrival Facility (VOA) to 150 countries in stages from the current 43, is a big step to promote tourism.

The renewed sense of optimism follows a volatile economic environment for most part of 2014 and the sector hopes that initiatives announced by the new government, including those related to e-visas and specific funds for developing tourist circuits would bring in good business to hospitality sector as well.

**C. SEGMENTWISE PERFORMANCE:****HOTEL DIVISION:**

Due to weak conditions prevailing in the Garments industry in Tirupur during the year - the performance of the Hotel entirely depends on the prospectus of exports of garments - the Hotel segment witnessed a setback in performance levels in this year. The Profit before Interest and Tax of the Hotel segment is Rs.150.01 lakhs as compared to Rs.365.27 lakhs for the previous year.

**SHOPPING ARCADE DIVISION:**

During the year under review, as no income derived from the Shopping Mall component and entire borrowing cost and other operational expenses charged to this segment, the Loss before Interest and Tax of the Shopping Arcade segment is Rs.125.95 lakhs as compared to Rs.73.04 lakhs loss for the previous year.

**D. RISKS AND CONCERNS:**

The Indian Hotel industry continues to grapple with profitability pressures. The hotel industry has come a long way since the global financial crisis. However, worries persist about patches of economic, political uncertainty around the world and increased supply in the market.

Terrorist attacks or political unrest in different parts of the country have adversely affected sentiments of foreign tourists. Safety has become a more prominent concern for tourists. Concerns about women's safety remains of paramount importance.

Infrastructure facilities such as air, rail, road connectivity remains a major hurdle for development of tourism and hospitality sector. Aviation infrastructure is also critical since it is a major mode of entry for inbound tourism and infrastructure facilities at airports are cause for concern.

Availability of skilled manpower is a major challenge faced by the tourism and hospitality industry, one of the largest employment generators in the country. Attrition, shortage of tourism training infrastructure, qualified trainers, and lack of proper strategies and policies for human resource development also affect the industry.

Tourism and hospitality in India is a high-taxed industry, which makes India expensive as a tourist destination. This is affecting the growth of the industry in India and India is losing out to other low-cost destinations. Various taxes are levied across the entire industry and these tax rates tend to vary across different states in the country.

Your hotel revenue is inextricably linked to performance of export business of garments at Tirupur which totally depends on the key markets such as USA, Europe, Canada and Japan.

Inflation has been consistently high over the last three to four years because of increase in food, power and fuel prices thus affect the margin of food business of the hotel.

**E. OUTLOOK:**

India's tourism and hospitality industry has huge growth potential. The industry is also looking forward to the E-visa scheme which is expected to double the tourist inflow to India. Enforcing the electronic travel authorisation (ETA) which starts in November, will result in a clear jump of at least 15 per cent.

The International Monetary Fund (IMF) and the Moody's Investors Service have forecasted that India will witness a GDP growth rate of 7.5 per cent in 2016, due to improved investor confidence, lower food prices and better policy reforms. As per the latest Global Economic Prospects (GEP) report by World Bank, India is leading The World Bank's growth chart for major economies.

Potential economic growth is expected in coming years, especially in the services industry, India is expected to witness increased tourist activity both in the business and leisure segments. The oil prices have declined to a level not seen since 2009. This will lower transport costs and boost economic growth by lifting purchasing power and private demand in oil importing economies like India. As a result of this, higher disposable income and affordability will increase domestic leisure travel in India. This is a clear indicator that the long-term prospects for the Indian tourism and hospitality industry are bright.
